

**ALAMEDA LOCAL AGENCY FORMATION COMMISSION
RESOLUTION NO. 2018-09**

REAFFIRM THE EXISTING SPHERE OF INFLUENCE FOR THE CITY OF LIVERMORE

WHEREAS, Government Code Section 56425 et seq. requires the Local Agency Formation Commission (LAFCo) to develop and determine the sphere of influence (SOI) of each local governmental agency within the County; and

WHEREAS, Government Code Section 56425(g) requires that LAFCo review and update the adopted SOI boundaries, as necessary, every five years; and

WHEREAS, Government Code Section 56430 requires that a municipal services review be conducted prior to or in conjunction with a SOI update; and

WHEREAS, LAFCo conducted a Cities Municipal Services Review of the services provided by the 14 cities in Alameda County and adopted written determinations as required by Government Code Section 56430 on January 11, 2018; and

WHEREAS, the update of the City of Livermore's sphere of influence is Categorical Exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15061(b)(3) which states that an activity is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA. The sphere update is further exempt from CEQA pursuant to Section 15378(b)(5) which states that organizational or administrative activities of governments that will not result in direct or indirect physical changes in the environment are not considered projects under CEQA; and

WHEREAS, the City of Livermore provides animal control, fire and emergency response, law enforcement, library, lighting, planning/building, and streets. Other services, such as solid waste, are provided under contract with other service providers; and

WHEREAS, the City of Livermore incorporated in 1876; and

WHEREAS, the City lies in the eastern portion of Alameda County, bordered to the west by the cities of Dublin and Pleasanton and surrounded for the most part by unincorporated area; and

WHEREAS, the City of Livermore's SOI was established by LAFCo in 1979 and the SOI was amended in subsequent years; and

WHEREAS, no change in regulation, land use or development will occur as a result of updating the City's SOI; and

WHEREAS, in the form and manner prescribed by law, the Executive Officer has given notice of a public hearing by this Commission; and

WHEREAS, the SOI update was duly considered at a public hearing held on January 11, 2018; and

WHEREAS, at the public hearing all persons present were given an opportunity to appear and be heard with respect to any matter pertaining to said action.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED AND ORDERED that the Alameda LAFCo hereby:

1. Finds this SOI update is categorically exempt under Section 15061(b)(3) and Section 15378(b)(5) of the CEQA Guidelines.
2. Reaffirms the existing SOI for the City of Livermore as generally depicted in Exhibit A attached hereto.
3. Adopts the following SOI Policy:
 - Policy Recommendation #1: LAFCo shall encourage the City of Livermore to annex, where appropriate, any unincorporated islands wholly surrounded by the city.
4. Considered the criteria set forth in Government Code Section 56425(e) and determines as follows:

Criteria	Determination
<i>The present and planned land uses (including agricultural and open-space lands)</i>	The City of Livermore plans for a variety of urban uses within its boundary, representing a continuation of the current mix of uses, including residential, mixed use, commercial, industrial, open space, and community facilities. Present and planned land uses are adequate for existing residents as well as future growth, as demonstrated in the General Plan (2004).
<i>The present and probable need for public facilities and services</i>	There are no anticipated changes in the type of public services and facilities required within the SOI for the City of Livermore. The level of demand for these services and facilities, however, will increase commensurate with anticipated population growth over the next five years.
<i>The present and probable future capacity of public facilities and services</i>	The present capacity of public facilities in the City of Livermore appears adequate. The City of Livermore anticipates it will continue to have adequate capacity during the next five years.
<i>The existence of any social or economic communities of interest if the commission determines that they are relevant to the agency</i>	All communities of interest within the City's municipal boundary are included within the SOI. There are no DUCs within the City of Livermore or its SOI. Alameda LAFCo has not identified specific social or economic communities of interest relevant to the City of Livermore.
<i>For an update of an SOI of a city or special district that provides public facilities or services related to sewers, municipal and industrial water, or structural fire protection, that occurs pursuant to subdivision (g) on or after July 1, 2012, the present and probable need for those public facilities and services of any disadvantaged unincorporated communities within the existing sphere of influence</i>	The City of Livermore provides structural fire protection and sewer facilities and services within its SOI; water is provided by Livermore and Cal Water Service Company. There are no DUCs within or contiguous to the SOI for the City of Livermore and therefore no present or probable need for these facilities and services for DUCs.

5. Direct staff to file a Notice of Exemption as lead agency under Section 15062 of the CEQA Guidelines.
